# HOUR OF CODE

Computer Science Education Week  
Dec. 5-9, 2016 - All Grades

Morse  
Elementary  
School

- Why Computer Science?
  - Computer Science helps nurture problem-solving skills, logic, and creativity.
  - When students see what they create right before their eyes, they are empowered to keep learning.
  - Every 21st century child should have a chance to learn about algorithms, how to make an app, or how the internet works.
  - A Computer Science major can earn 40% more than the college average.

# HOUR OF CODE

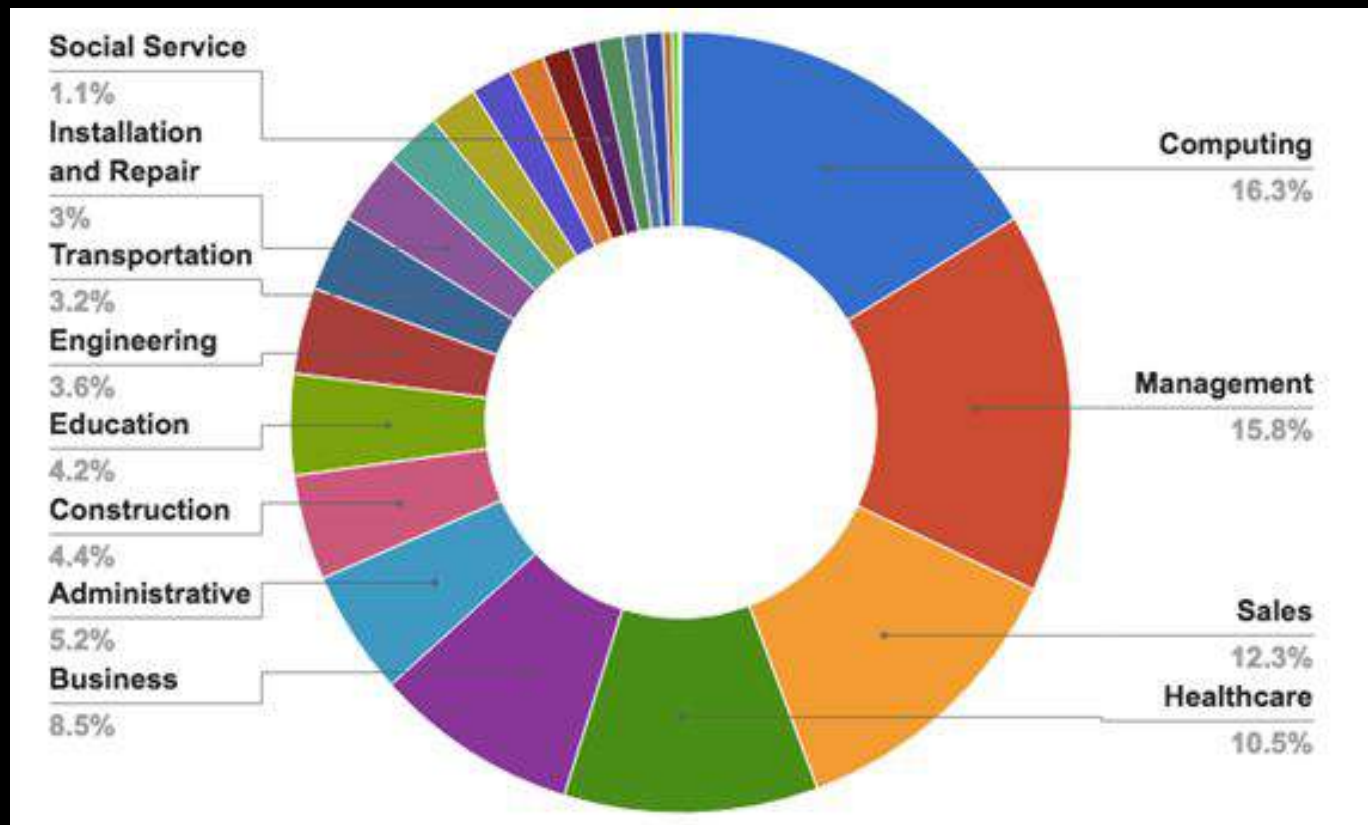

HOUR  
OF  
CODE

We live in a world surrounded by technology. We know that whatever field our students choose to go into as adults, their ability to succeed will increasingly hinge on understanding how technology works. But only a tiny fraction of us are learning computer science, and fewer students are studying it than a decade ago.

That is why our school is once again joining in on the largest learning event in history: The Hour of Code, during Computer Science Education Week.
